Professional Summary

Frontend developer and BS Information Technology student with hands-on experience designing, building and deploying full-stack web applications using React, TypeScript, Node.js and MySQL. Led a capstone team that delivered a deployed records system for a local government office, and builds responsive, well-tested websites for freelance clients. Combines an eye for clean, user-friendly interfaces with a quality-assurance mindset, and seeks to deliver reliable products and grow within a technology-driven team.

Education

Bachelor of Science in Information Technology **2023 – Present**
Sorsogon State University – Bulan Campus, Zone 8, Bulan, Sorsogon
Relevant coursework: Software Engineering, Database Systems, Web and Mobile Development, Human–Computer Interaction

Experience

Freelance Frontend Developer / QA Tester **2025 – Present**
Remote

- **Developed** and deployed responsive websites and web applications for small businesses and organizations using React, Tailwind CSS and Vercel, giving clients fast, mobile-friendly sites that strengthen their online presence.
- **Translated** client requirements into UI designs and working interfaces, ensuring each product met expectations.
- **Conducted** functional, responsive and cross-browser testing per release, catching defects early for stable deployments.

Capstone Project Team Leader **2024 – 2026**
Sorsogon State University – Bulan Campus

- **Led** a student development team in building Bulan Senior Care for the Office for Senior Citizens Affairs (OSCA) of Bulan, delivering a live system that centralizes senior-citizen records and benefits tracking for local government staff.
- **Architected** and developed the React frontend, Node.js/Express REST API and MySQL database, producing a complete full-stack application deployed to production on Vercel and Railway.
- **Coordinated** tasks, timelines and code integration through Git and GitHub, keeping the team aligned through final defense.

Projects

Bulan Senior Care **bulan-senior-care.vercel.app**

- **Built** a records-management module and administrative dashboard that lets OSCA staff register, search and update senior-citizen profiles in one secure, searchable system.
- **Implemented** per-beneficiary benefits tracking, giving staff a clear, up-to-date view of benefits released.

Technologies: React, Node.js, Express, MySQL, Vercel, Railway

Equalize Gender **equalize-gender.vercel.app**

- **Developed** a gender awareness and inclusion platform with interactive Chart.js visualizations of official Philippine data, making gender-based violence statistics easier for the public to understand.
- **Created** a myth-or-fact quiz and resources based on RA 9262, 9710, 11313 and 11596, helping users learn their rights.

Technologies: React, TypeScript, TanStack Start, Tailwind CSS, Chart.js, Vercel

Personal Developer Portfolio **github.com/justingojar/my-portfolio**

- **Engineered** an animated portfolio with a serverless backend (contact form, admin inbox, view counter) to showcase my work.

Technologies: React, Vite, Tailwind CSS, Framer Motion, Vercel Functions, Upstash Redis

Skills

Frontend:	React, JavaScript, TypeScript, HTML, CSS, Tailwind CSS
Backend:	Node.js, Express, REST APIs, PHP, Laravel
Database:	MySQL, Supabase
Tools:	Git, GitHub, Vite, Vercel, Railway, Netlify, Figma, AI coding tools (Claude Code, Codex, ChatGPT)
Soft Skills:	Leadership, Teamwork and Collaboration, Problem Solving, Time Management, Adaptability, Fast Learner

Additional Information

- **Languages:** English, Filipino
- **Availability:** Open to internship, part-time, full-time and remote opportunities

I hereby certify that the information provided in this resume is true and correct to the best of my knowledge and belief.
